

October 2023

Dear Parents/Carers,

When sending out the homework logins, we also included the children's mathmagicians login details. Arithmagicians will be supporting our teaching and learning of mental maths strategies this year and is great for developing children's mathematical fluency. Below is some guidance on how the website can be used.

Practice mode - you can choose specific objectives to work on. Click 'Practice' then the area of maths.

You can then choose the specific objective.

There is a video for every objective with all of the key learning points.

Craft mode includes all of the objectives together.

Below are the objectives we will be focussing on for the rest of the autumn term should your child wish to engage in further practise at home.

- w/b 9th October: Divide multiple of 100 by 10/100
w/b 16th October: Multiply 2-digit numbers by 5,20,25 or 50
- w/b 30th October: Know square and cube numbers
w/b 6th November: Order of operations: BIDMAS
w/b 13th November: Pairs of fractions that total 1
w/b 20th November: Multiply and divide fractions
w/b 27th November: Fractions of amounts
w/b 4th December: Multiply decimals by 10, 100 or 1,000

Please do ask your child's class teacher if you have any questions.

Kind regards,

Year 6 Team
