

15th December 2023

Year 5 Space VR Workshop - Tuesday 16th January 2024.

Dear Parents and carers,

On the morning of Tuesday 16th January 2024, Education Group will be coming into school to host an exciting interactive VR workshop. Year 5 will become astronauts for the morning and blast off into space to discover asteroids, stars, moons, and planets.

Each child will use a networked headset for an immersive learning experience about the solar system. The VR headsets have been specially designed and are not strapped to the children's eyes, which means they are free to take them off at any time. The children will only have the headsets on for short periods because they will be taking part in an interactive discussion about their discovery and learning.

To run this exciting event, we will require a donation of £6.50 Please could payments be made by Monday 15th January 2024, via Tucasi.
