## Careers Morning – Monday 18<sup>th</sup> March 2024

Dear Parents/Carers,

On Monday 18<sup>th</sup> March, the whole school will be taking part in a careers morning: this year, the focus of the morning will be on how learning links to the world of work.

We hope to make the day as inspiring as possible by exposing children to a variety of jobs and careers whilst also helping them to make meaningful links between their learning and the real world. With this in mind, we are asking for volunteers who are able to spare approximately 90 minutes (3 x 30-minute sessions in a year group) to come in on the morning to share their job/career with the children.

The key information you would need to share with the children includes an overview of your job/career and the pathway you took or are taking to get there and some of the positive aspects/benefits involved - we have found that the children engage incredibly well when the sessions are interactive (artefacts to see, demonstrations, short activities, etc.). We would then give the children a chance to ask you some questions.

If you have a job that you believe fits the morning's focus and are able to give up some time on the day, please email [info@frimley.surrey.sch.uk](mailto:info@frimley.surrey.sch.uk) with the subject 'FAO Mr Phillips' and provide a brief overview of your job/career within the email.

Kind regards

Mr Phillips
