

Newton EDIJ Newsletter February 2024

By Tristan and Leo, Newton House Captains

During our Enrichment Day, we learnt about EDIJ (Equity, Diversity, Inclusion and Justice).

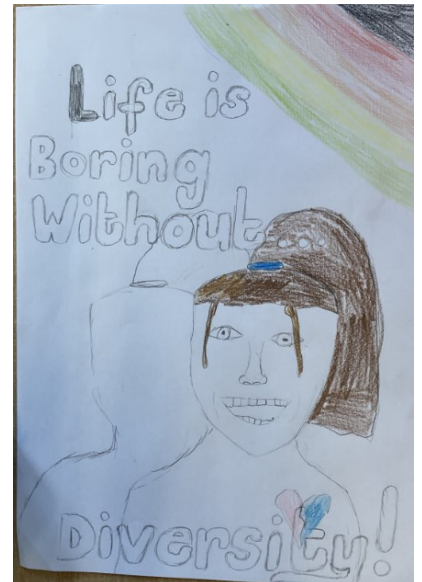

Equity - To be **fair** not equal

(allows everybody to be successful)

Diversity - to be **different** and **yourself**

Inclusion - ensuring that **everybody** feels **included**

Justice - **treated** in a **manner** that is **fair**

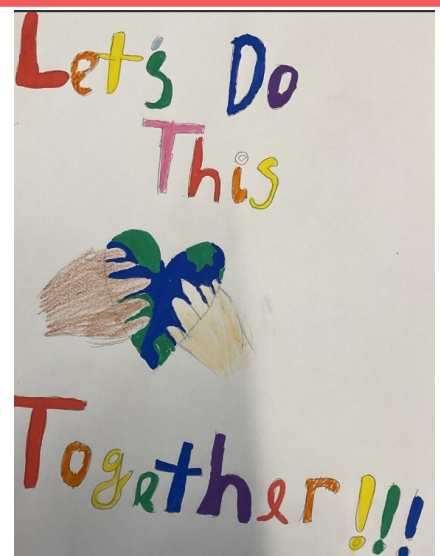

The first activity that we did was scenarios.

First, we discussed the difference between equity (to be fair) and equality (to give everyone the same things but not to necessarily give everyone what they need).

We discussed different scenarios and understood how they showed equity rather than equality.

In our second session, we read some stories based on the theme of diversity. We worked in teams to create a piece of artwork that we felt represented the theme of diversity.

Finally, we looked at inclusion. We mainly focused on how we can make games inclusive to everybody, regardless of their individual needs.
