

# Frimley Church of England Junior School

22<sup>nd</sup> February 2024

Dear Year 5 Parents

As part of our D.T. curriculum, the children will be designing, making and testing their own moon buggies. This project is linked to their science topic (space) and provides the children with an opportunity to create their own model, which will be powered by an electrical circuit. The children will have an opportunity to refine, change and tweak their buggies as they go along, before racing them in the hall at the end of term.

If you would like your child to bring their moon buggy home at the end of term please make a payment of £2.50 on SCOpay by 26<sup>th</sup> March which will contribute towards the costs of the buggies.

Kind regards

Year 5 Team
