

Feedback from Y3 Transition Parent Survey

Thank you very much to the parents who responded to the Y3 survey that we emailed out a few weeks ago: we received 26 responses.

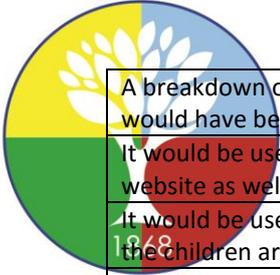

Below, you will find a summary of the feedback and will also see what actions we intend to put into place in response. We really do value your feedback in helping us to further improve the offer we provide to our children and their families.

We asked you to rate	Average score 1= unhappy, 5 = very happy
how satisfied you were with the transition experience from your child's perspective	4.08
if your child found the transition process particularly challenging, how well the school had done to support you and your child since September	4.25

We asked you to...	Most useful	Least useful
Rate different aspects of transition	Opportunity for children to meet their class teacher in July	Question and Answer session with Head of Year and Head Boy and Head Girl via Teams
Identify what would be useful for next year's cohort moving up from KS1 (if COVID restrictions allow)	Induction Day in July A dedicated page on our website around transition	Receiving regular newsletters from Frimley

Other feedback that will inform our future Y2 – 3 transition practices:

You said.....	We will: (If COVID restrictions allow)
The more chance for children being able to visit the setting they are going to the better	We are working closely with our 2 main feeder schools (Cross Farm and Sandringham) to plan in regular opportunities throughout the academic year for the Y2 children to visit Frimley for a range of activities.
It would be nice for the children to meet their buddy ahead of the first day	As the children come to visit us throughout the year (see above), we will buddy up the Y2 children with our Y3 children so that each time they come to Frimley they work with the same children. This way they are already forming relationships with their buddy ahead of next year and feel like they know people in the school. We will also organise for the Y2 children to meet their buddies as part of Induction Day in July
It would have been helpful for a meet the teacher evening for parents	We will organise an information evening for parents in July

Frimley Church of England Junior School

A breakdown of what to expect for the first few days would have been helpful	This will be incorporated into an information evening (see above)
It would be useful to have a dedicated page on the website as well as the parent handbook	Set up a transition information page on our website
It would be useful to have more feedback on what the children are actually doing in class	Update more regularly (once a week) on Twitter what the children have been up to
The teachers need to read the notes from KS1 more carefully	Work closely with KS1 settings to ensure a full handover of key information – review what information is requested

Other comments about transition:

“Considering the current Year 3 children couldn't do a normal transition day due to Covid, I thought everything you put in place was fantastic (meeting the teacher outside, the Year 3 video etc). I was surprised at how well my son transitioned into Year 3 considering he had some challenges in Year 2, so I'd like to thank everyone involved at C of E.”

“My child loves year 3 and has settled in very well. Thank you for getting my child to want to read more- a massive achievement.”

“The teachers have been fantastic as I've spoken to them about my worries with my child's anxiety and I can't fault them at all.”

“I think the transition process has been really well done. My daughter has settled in very well and enjoys going to school every day.”

“I think you have done an excellent job. It will always be a big step up, and it's a good experience for the children.”

Many thanks again for all your feedback, it is really helpful in shaping and developing our future transition work.

Yours sincerely,

The Year 3 team
