

COVID-19 School Outbreak Management Plan

Clare Wright – Frimley Junior School

SURREY
COUNTY COUNCIL

Document Owner	Clare Wright (HT) Frimley Junior School
Creation Date	26.8.21
Version	Version No 1
Status	Final
Publication Date	August 2021
Review Date	ongoing

Version control	Date	Reason for change
V1	Sep 21	New guidance
V2	Feb 22	Updated guidance

Introduction

This document outlines what the school would do if children, pupils, students or staff test positive for COVID-19, or how the school would operate if we were advised to reintroduce any measures to help break chains of transmission, following the [Contingency Framework for managing local outbreaks](#) of COVID-19 and the [schools operational guidance](#) provided by the Department for Education (DfE).

The Outbreak Management Plan should be read alongside the school's Risk Assessment. The risk assessment sets out the protective measures for day to day operation. The additional measures in the case of and for the duration of an outbreak are given in the risk assessment under separate headings "***Temporary Additional Measures in the event of an outbreak***" and are shown in italic text.

The measures in this plan may be implemented in response to recommendations provided by Surrey County Council, Director of Public Health (DsPH) or the PHE Health Protection Team (HPTs) as part of their outbreak management responsibilities. Where there is a need to address more widespread issues across an area, ministers will take decisions on an area-by-area basis.

This document:

- Covers roles and responsibilities
- Details when and how to seek public health advice
- Refers to the risk assessment already in place which includes the control measures that the school might be asked to put in place described in the guidance.

For each control measure it will include:

- Actions the school would take to put it in place quickly
- How the school would ensure every child, pupil or student receives the quantity or quality of educations and support to which they are normally entitled
- How the school would communicate changes to children, pupils, students, parents, carers and staff

When our school will consider extra action

The following thresholds based on the DfE Contingency Framework will be used by the school as an indication for when to seek public health advice if concerned. For most education and childcare settings, whichever of these thresholds is reached first:

- higher than previously experienced and/or rapidly increasing number of staff or student absences due to COVID-19 infection
- evidence of severe disease due to COVID-19, for example if a pupil, student, child or staff member is admitted to hospital due to COVID-19
- a cluster of cases where there are concerns about the health needs of vulnerable staff or students within the affected group

The school may wish to seek additional public health advice if we are concerned about transmission in the setting, either by phoning the DfE helpline (0800 046 8687, option 1) or in line with other local arrangements. A director of public health or an HPT may give settings advice reflecting the local situation.

Identifying a group that is likely to have mixed closely will be different for each setting. The Contingency Framework gives examples for each sector, for schools this could include:

- A class or year group
- A friendship group mixing at breaktimes
- A sports team
- A group in an after-school activity

The school will review and reinforce the testing, hygiene and ventilation measures we already have in place. These controls are documented in the School's Protective Measures Risk Assessment.

The school will seek public health advice if a pupil, student, child or staff member is admitted to hospital with COVID-19. We can do this by phoning the DfE helpline (0800 046 8687, option 1), or in line with other local arrangements. Hospitalisation could indicate increased severity of illness or a new variant of concern. Settings may be offered public health support in managing risk assessments and communicating with staff and parents.

Testing

The school has planned for the possibility of the reintroduction of LFD testing by staff. This could include advice on more frequent testing.

Testing is documented in the School's Protective Measures Risk Assessment section: 9. Promote and engage in asymptomatic testing, where available.

Face coverings

The school has planned for the possibility that it may be advised by a director of public health that face coverings should temporarily be worn in settings in their area. This may include face coverings in communal areas and/or classrooms, for staff and any visitors. Children of primary school age should not be advised to wear face coverings

The use of face coverings in such outbreak circumstances is documented in the school's Protective Measures Risk Assessment section: 2. Where recommended, use face coverings.

Shielding

In the event of a major outbreak or VoC that poses a significant risk to individuals on the shielded patient list (SPL), ministers can agree to reintroduce shielding. Shielding would be considered in addition to other measures to address the residual risk to people on the SPL, once the wider interventions are taken into account.

The school has planned for this and is documented in the School's Protective Measures Risk Assessment section: 12 Workforce and Attendance.

Other measures

The school has planned for the possibility that we are advised to limit:

- residential educational visits
- open days
- transition or taster days
- parental attendance in settings
- live performances in settings

This is documented in the School's Protective Measures Risk Assessment section 6. Minimise contact and will follow the controls set out by specific DfE and Government guidance for these activities.

Attendance restrictions

High quality face-to-face education remains a government and schools priority. Attendance restrictions will only ever be considered as a short-term measure and as a last resort:

- for individual settings, on public health advice in extreme cases where other recommended measures have not broken chains of in-setting transmission; or
- across an area, on government advice in order to suppress or manage a dangerous variant and to prevent unsustainable pressure on the NHS.

In all circumstances, priority will continue to be given to vulnerable children and young people and children of critical workers to attend to their normal timetables. Where measures include attendance restrictions, DfE may advise on any other groups that should be prioritised.

The school has planned for the possibility that we are advised, temporarily, to limit attendance and should ensure that high quality remote education is provided to all pupils or students not attending.

Remote education

High-quality remote learning will be provided for all pupils and students if:

- they have tested positive for COVID-19 but are well enough to learn from home; or
- attendance at their setting has been temporarily restricted

On-site provision will in all cases be retained for vulnerable children and young people and the children of critical workers. If we have to temporarily stop onsite provision on public health advice, we will discuss alternative arrangements for vulnerable children and young people with the local authority.

Education workforce

If restrictions on child, pupil and student attendance are ever needed, leaders of the school will determine the workforce required onsite and if it is appropriate for some staff to work remotely. This is documented in the School's Protective Measures Risk Assessment section: 12 Workforce. The school will refer to the guidance on clinically extremely vulnerable people.

Safeguarding and designated safeguarding leads

There will be no change to local multi-agency safeguarding arrangements, which remain the responsibility of the 3 safeguarding partners:

- Local Authorities
- Clinical commissioning groups
- Chief officers of police

If attendance restrictions are needed in any education or childcare setting, the school expects all local safeguarding partners to be vigilant and responsive to all safeguarding threats with the aim of keeping vulnerable children and young people safe, particularly as more children and young people will be learning remotely.

The school will continue to have regard to any statutory safeguarding guidance that applies to them, including:

- Keeping children safe in education
- Working together to safeguard children

The school, ideally led by the designated safeguarding lead (DSL) or a deputy, will review the child protection policy so that it reflects the local restrictions and remains effective. It is expected that the school will have a trained DSL (or deputy) available on site. If this is not possible:

- A trained DSL (or deputy) from the school can be available to be contacted via phone or online video, for example working from home
- Sharing trained DSL (or deputies) with other schools within The Prospect Trust (who should be available to be contacted via phone or online video)

Vulnerable children and young people

Where vulnerable children and young people are absent, the school will:

- Follow up with the parent or carer, working with the local authority and social worker (where applicable), to explore the reason for absence and discuss their concerns
- Encourage the child or young person to attend educational provision, working with the local authority and social worker (where applicable), particularly where the social worker and the Virtual School Head (where applicable) agrees that the child or young person's attendance would be appropriate
- Focus the discussions on the welfare of the child or young person and ensuring that the child or young person is able to access appropriate education and support while they are at home
- Have in place procedures to maintain contact, ensure they are able to access remote education support, as required, and regularly check if they are doing so

If settings have to temporarily stop onsite provision on public health advice, we should discuss alternative arrangements for vulnerable children and young people with the local authority.

School and FE meals

The School will provide meal options for all pupils who are in school. Meals will be available free of charge to all pupils who meet the benefits-related free school meals eligibility criteria.

The school will continue to provide free school meals support in the form of meals or lunch parcels for pupils who are eligible for benefits related free school meals and who are not attending school because they have had symptoms or a positive test result themselves.

Educational visits

Any attendance restrictions will be reflected in the visit's risk assessment and setting leaders should consider carefully if the educational visit is still appropriate and safe.

Only students who are attending the setting will go on an educational visit. Education settings should consult the health and safety guidance on educational visits when considering visits.

This is documented in the School's Protective Measures Risk Assessment section: 6. Minimise contact.
