Electricity

In science this half term we learnt about electricity. We explored the different types of circuits and the materials that conduct electricity.

We got to go onto keynote to make an animation of an electric circuit in action.

We then used our knowledge of circuits to design and make a light up box which was really fun!

Jayden 4M

English

In English we have learnt about the story of The Iron Man. First we retold the story and then focused on writing instructions. Our instructions were 'How to trap The Iron Man'.

In instruction writing you need a section for a title, what you will need and what you do.

We also had a go at writing poems for national poetry day.

We submitted our entries and are excited to see if we have any winners!

Lucas 4C

Harvest

This half term year 4 have been really excited about our Harvest Festival. We have been practising most afternoons. We have been singing our songs and learning our lines and we can't wait to perform for everyone.

My favourite song is the Alphabet Harvest.

Emilia

Netball

In PE this half term we have been learning about netball. We have practised bounce passes, chest passes and shoulder passes. We also learnt that you cannot move when you are holding the ball and can only pivot

Elizabeth and Henry 4B

Coding

In year 4 we have had an exciting opportunity to try out coding on the ipads. We have used a new app called Swift Playground. On it we learnt how to move a character using different commands such as forward, turn left and collect the gem.

Luke D

Go Ape

Our trip to Go Ape was very exciting and we realised how values such as resilience and perseverance can help us in every day learning.
