Digestive system

In Science this half term we learnt about the digestive system. We explored the different organs and studied the process of how food travels through our bodies.

We got to go onto Keynote and iMovie to make a green screen movie to show how the digestive system works.

Then we did an experiment using different foods and liquids. We passed it through a stocking to see first hand how everything functions.

English

In English we are busy writing a story about Kevin the carrot.

This is a Christmas themed story, where a wicked parsnip has kidnapped Kevin's family and he is on a mission to save them.

We are all enjoying this story very much and can't wait to write about what happens next on his adventure.

Ajnel 4M

French and Music

This half term Year 4 have been having loads of fun in French and Music. We have been learning about the ukulele. We even learnt how to play a song or two on the ukulele in music.

In French, we have done lots of talking and practising our pronunciation.

Rugby

In PE this half term we have been learning about tag rugby. We have learnt that you can only pass the ball backwards. You are not allowed to tag someone else when you are offside.

Rupert 4M

TT rockstars

In year 4 the classes have been competing against each other to see who will win the TT rockstars battle. We are all working really hard to improve and attempt to win the trophy for our efforts.

Noah F 4M

Hobgoblin

This half term we had the Hobgoblin theatre team join us in school and put on a play about the Ancient Greeks. It was really fun and we got to do acting as well.
